SKIN: Wash contact area thoroughly with soap and water. Washing clothing separately from other garments. If irritation persist, stop using garments and seek medical advise.

INGESTION: DO NOT induce vomiting. Seek immediate medical attention.

INHALATION: Remove to fresh air. If breathing is difficult, have trained personnel administer oxygen and seek immediate medical attention.

NOTES TO PHYSICIANS OR FIRST AID PROVIDERS: Administration of absorbents may be of value.

SECTION 4 NOTES: Always wear protective eyeware, gloves and clothing when handling any chemical.

SECTION 5: FIRE-FIGHTING MEASURES

FLAMMABILITY: Class B Flammable Liquid

EXTINGUISHING MEDIA: Carbon dioxide, dry chemical powder, extinguishing form media

SPECIAL FIRE FIGHTING PROCEDURES: Evacuate all unnecessary personnel. Shut down all electrical devices in exposed area. Use water to keep adjacent containers cool to prevent pressure build-up. Wear self-contained breathing apparatus and full protective clothing.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Container explosion may occur under fire conditions. Toxic fumes from container may be emitted under fire conditions.

HAZARDOUS DECOMPOSITION PRODUCTS: Chlorine containing gas, Fluorine containing gas, may be discharged upon decomposition.

SECTION 5 NOTES: Avoid static charge build-up. Static charge could ignite heavy vapors.

SECTION 6: ACCIDENTAL RELEASE MEASURES

ACCIDENTAL RELEASE MEASURES: Determine to evacuate or isolate the area according to your local emergency plan. For large spills, supply emergency diking to contain materials. After removal of bulk material, the use of an absorbant is needed for final clean up. Remove waste materials to a location per your local waste management regulations, state or Federal regulations.

SECTION 6 NOTES: Always wear personal protective equipment when handling all types of chemicals and waste products. Refer to section 8 for Personal protective equipment.

SECTION 7: HANDLING AND STORAGE

HANDLING AND STORAGE: Store in cool dry location with adequate ventilation. Do not store in direct sunlight. Keep containers tightly sealed when not in use. Avoid leaving open containers during use.

Store in temperatures between 55°F and 80°F.

OTHER PRECAUTIONS: Always wear protection clothing when handling all chemicals. See section 8 for details.

SECTION 7 NOTES: Do not smoke when handling materials. Keep away from moisture and standing water.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROLS: Local and general ventilation is recommended.

RESPIRATORY PROTECTION: Use respiratory protection unless adequate ventilation is in place and has been assessed to provide proper air movement for recommended exposure. Follow OSHA requirements for respirator regulations 29CFR 1910.134.

EYE PROTECTION: Always wear protective eyeware or goggles. Recommended use of full face respirator or large volume handling and spills.

SKIN PROTECTION: Chemical protective gloves is always recommended. Wash exposed skin immediately if contact with chemical occurs.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT: The use of chemical resistant aprons, shoe covers and face shields is recommended for any handling of chemicals.

WORK HYGIENIC PRACTICES: The use of proper cleaning soaps and solutions for all body parts is recommended. Eye wash stations and showers in accordance with OSHA and local safety regulations is advised and in close proximity.

EXPOSURE GUIDELINES: Refer to sections 4, 7, and 8 for contact and exposure recommendations.

SECTION 8 NOTES: Note, all of these precautions are based off of room temperature handling. Elevated temperatures may increase the need for extra care in handling of materials.
